

Advanced made simple for you.

# ADVANCED FUNCTIONALITY. SIMPLER PRODUCTIVITY.

Featuring the latest in technology, the **imageRUNNER ADVANCE 6000 series** makes document communication simpler than ever. It is designed to integrate seamlessly with your current infrastructure and enhance the document management cycle at every single stage. From black and white prints to full color scanning, annotation and transmission – all the way to the world of Cloud computing – you will discover a new era of quality, convenience and efficiency all in a single multifunctional device.

The **imageRUNNER ADVANCE 6000 series** brings you a world of advancement:

Find out how we have made Advanced technologies work simpler for you.

# imageRUNNER ADVANCE TECHNOLOGY REACHES NEW HEIGHTS

Cloud computing is gaining acceptance with more and more companies across the globe. Businesses today look to Cloud computing for on-demand scalability. Costly infrastructure, setups and administrative burden are a thing of the past with proper implementation of Cloud Computing technology.

Canon's imageRUNNER ADVANCE maximizes office productivity by allowing users to access Cloud services right from imageRUNNER ADVANCE devices. Users can scan and store their paper documents, or choose to retrieve and print their documents stored in their Cloud service.

Scan-to-Cloud and Print-from-Cloud is simple with Canon's imageRUNNER ADVANCE - all that is needed is an imageRUNNER ADVANCE multifunctional device (MFD); no drivers, additional software or personal computers are required. With the Cloud Scan and Cloud Print support of Google™ Docs and Microsoft™ SharePoint Online, imageRUNNER ADVANCE systems are the perfect way to scan and print through Cloud services.

#### Important Note:

- \* Machine upgrades may be required to support Google™ Docs and Microsoft™ SharePoint Online Cloud services via the imageRUNNER ADVANCE devices. Internet connectivity is required.
- \*\* Users of Google™ Docs and Microsoft™ SharePoint Online Cloud services are advised to evaluate the benefits and risks of Cloud services and their data security needs.
- \*\*\* Availability of the Google™ Docs and Microsoft™ SharePoint Online Cloud services on the imageRUNNER ADVANCE devices varies by country or region. For more information, please contact your local Canon Sales Office.

# ADVANCED USABILITY AND CONVENIENCE

Meet the multifunctional device that is optimized for convenience and speed - your way.

## Configurable Quick Menu

Complex, frequently used settings can be easily configured to run at the touch of a button. This streamlines every individual's workflow and increases productivity by letting you accomplish more in less time.

## Plug and Print Capability

With standard USB input and optional media connectivity options such as Secure Digital (SD) or CompactFlash (CF) Cards, you can walk up to any imageRUNNER ADVANCE 6000 series with your thumbdrive or memory card to scan and print on the spot.

## Intuitive User Interface

The new imageRUNNER ADVANCED 6000 interface provides you with a more pleasant navigation experience on an 8.4" full color, high-resolution TFT touchscreen. For even better accessibility, Canon recommends the optional Upright Control Panel. The larger 10.4" screen promotes easier legibility, while tilt and swivel capability allows users to adjust the UI to a comfortable preference.

## Innovative Toner System

To maintain the ongoing productivity of your business, the imageRUNNER ADVANCE 6000 series features a toner system that can be replaced - even when your device is delivering printouts.

# ADVANCED PRINT QUALITY

Quality prints that truly shine.

## ADVANCED imageCHIP System Architecture

To meet and exceed the demands of today's businesses, Canon has developed a dual processor system. The image processor board works with the scanner, adjusts images, and ensures superior image quality and ultra-fast processing. The information processor boards controls user interface and coordinates device networking and connectivity. The result is higher quality printouts with lesser wait.

## Genuine Adobe Postscript 3

The imageRUNNER ADVANCED 6000 series supports Genuine Adobe PostScript 3 printing capability, enabling you to deliver the desired output quality without worrying about font compatibility. True PostScript capability also means seamless collaboration with PostScript workflows for faster and higher quality prints. You will also enjoy direct PDF printing and full support of Adobe fonts.

## High Resolution Brilliant Printouts

Combine the E-drum imagePRESS technology with a 1200x1200 dpi printing resolution, and you will get sharp and vivid printouts, image consistency and high speed printing. Add to that an intelligent controller, and the imageRUNNER ADVANCE 6000 series truly brings you the crispest black and white printouts.

## Fiery Print Controllers

For jobs that demand an exceptionally high level of productivity and advanced management workflow control, Canon provides a powerful Fiery print controller option. The imagePASS-U1 is Variable Data Printing (VDP) ready and support a variety of VDP languages.

# ADVANCED PRODUCTIVITY

Advanced technology becomes simple with the Canon imageRUNNER ADVANCE. Simply add the modular units you need to further extend the functions of your device.

## Professional Looking Documents

With Canon's optional accessories, it is easy to impress and inspire with professional-grade reports and presentations. Simply select the settings you want, ranging from automatic stapling, punching, collating, V-folding and even booklet creation function. For a compact footprint, internal stapling and collating units are also available as options.

## 4-Line Fax

The imageRUNNER ADVANCE 6000 series supports optional Super G3 fax functionality for high-speed fax transmissions. The 4-line fax feature is capable of handling large volumes of fax documents, while ensuring lesser busy signals and greater connectivity. You can also save cost and space by consolidating multiple fax devices into one shared device.

## High Speed Scanning

Canon's revolutionary Duplex Color Image Reader features a proprietary image sensor. This allows you to create 100 to 150 crystal-clear digital reproductions of black & white and color documents each time you press the button.

## Remote Fax Collaboration

With the optional Remote Fax Kit, you can also fax through other fax-capable imageRUNNER ADVANCE devices in the network, even if the one you are using does not have a fax-board installed. This means significant cost-savings and convenience.

## Paper Deck Unit Upgrade

High print count operations will benefit from the high capacity of optional Paper Deck Units. Paper Deck Unit-A1 and D1 adds an additional 3,500 sheets of A4 and A3 paper respectively. This translates to lesser time spent on paper loading and longer uptime for critical print jobs.

# ADVANCED DOCUMENT WORKFLOW

A healthy document workflow means a healthy business. With imageRUNNER ADVANCE 6000 series, you will find the most advanced, yet simple workflow.

## Scan and Send

In one simple operation, you can distribute scanned documents to multiple destinations, such as email, fax destinations and network folders. The wide range of formats include standard High Compression PDF, Adobe PDF Reader Extensions, Searchable PDF, Encrypted PDF and XPS.

## Advanced Box

Canon's new built-in document sharing solution simply makes sense. Multiple users can collaborate easily on a shared folder and access files from PCs or other networked imageRUNNER ADVANCE systems. Personal folders are also available for more sensitive documents. What's more, you can also preview the documents before printing them.

## iW Function Flow

iW Function Flow is an imageRUNNER ADVANCE series core MEAP application that can transform time-consuming, multiple step tasks into simple workflows for each user. Scanning, e-mailing, faxing, and archiving can be done in one operation, all from a single button on the device control panel.

## MEAP Connectors

MEAP Connectors bridge your Canon imageRUNNER ADVANCE and enable communication with external storage or document management systems. The software development kit (MEAP SDK) also enables third party vendors to develop systems based on your requirements. You can even create workflow tasks using the MEAP Connector with the PC-based Function Flow Editor tool.

# ADVANCED MANAGEMENT

The imageRUNNER ADVANCE makes it easy to monitor and optimize your company's output.

## Centralized Remote Control

Using the Remote User Interface, your IT managers and system administrators will be able to control and manage output devices without having to travel to each machine to check machines or update their status.

## eMaintenance

Canon's unique eMaintenance allows intelligent remote administration of your imageRUNNER ADVANCE device. Remote meter readings provides real-time tracking, while the automatic fault reporting and consumables tracking instantly alerts Canon Customer Care for proactive actions such as accurate device maintenance or toner replenishment. In short, eMaintenance provides you with more up-time, convenience and greater productivity.

*\* eMaintenance works with most Canon copiers, printers and multifunctional devices. For more information on what models are supported, please contact Canon.*

# ADVANCED SECURITY

Safeguard your business' sensitive documents without compromising on quality or speed.

**Card Authentication** controls access of devices in the office to authorized users with the use of optional ID cards.

**Document Scan Lock** embeds hidden tracking information in a document to restrict unauthorized copying or scanning, and track the origin.

**Department ID** restricts machine usage to those users with a valid ID and password.

**Access Management System** allows restriction of various features of copy, print, fax, scan, Mail Box by user, group or job function. You can even limit access for specific functions such as copying.

**HDD Encryption and Erase** encrypts information before it is written to the hard drive, and permanently removes it by overwriting when the job is complete.

**iEEE2600 Standard Conformity** meets the industry requirements for hardcopy security in medical, finance, and other office environments.

**Removable HDD Option** enables hard disk drive to be removed and placed in a secure location when not in use.
